	12.06m	2.08m	1.96m	-	-	-	-	-

This information is provided as a guide to help you in determining the type of shipping container best suited to your needs. It is important to notice that some of these specs will vary from container to container, depending on the type of construction, manufacturer. \*Please note that the cubic capacity of these containers is shown as an absolute maximum. The shipping packages are mostly in different sizes and shapes; hence the actual capacity can be substantially below these figures.
